

# MINI NOZZLE

Minimum shape, Maximum performance

**AQUATECH<sup>®</sup>**

# MINI

MINI is the new *minimal design* nozzle created by Tema Sistemi to protect *civil* and *naval* environments, *artistic heritage* and *luxury* environments.

It's the **smallest nozzle** in its category and is available in **BULB** and **OPEN** versions.

MINI perfectly integrates itself into the environments in which it is installed, guaranteeing *no impact on the architecture*.

With the minimum shape, it guarantees maximum performance.

## AQUATECH®

Thanks to **Aquatech** technology, it quickly extinguishes fires by producing a very subtle and directable mist.

The water micro-drops pushed out by high pressure perform the triple action of
