Our company

PROEX Protección Contra Incendios, S.L. (“PROEX PCI”) is the most experienced and the only fully specialized marine fire protection company in the Balearics. PROEX PCI is the only company in the balearics able to serve and maintain water-mist systems. On top of fire protection services, **PROEX PCI** also provides a complete range of fire retardant treatments.

PROEX PCI is ISO 9001:2015 certified with TÜV and is Lloyd’s register preferred supplier.

The **PROEX PCI** team is composed of highly skilled international professionals who are able to remedy all fire protection problems.

PROEX PCI was founded under the name of ORFEO BALEARES, S.L. in 1985., changing its name to ORBAL Protección Contra incendios, until 2018 when current name was set.

Our services

Providing marine fire safety for more than 30 years, **PROEX PCI** offers a wide variety of fire protection equipment and services for yachts, boats and harbours.

These include, but are not limited to:

- Fixed fire fighting systems (Watermist, Novec, FM200, Aerosols...)
- Marine-approved portable fire extinguishers
- Fire equipment
- Detection systems and alarm
- Certified workmanship
- Expert professional support.

A distributor of ANAF, Tema sistemi and Ignitor, **PROEX PCI** has a proven successful history of sales, installation and maintenance of fire protection, detection, alarm and extinguish systems in and around Mallorca.

PROEX also delivers fire prevention services for a plethora of materials – including carpets, curtains, mattresses, pillows, and upholstery – to ensure they are flame retardant in line with IMO regulations and providing a 2 years certificate.

PROEX is also able to work with notoriously difficult materials such as velvet and cashmere, doing so to an impeccably high standard.

The team at **PROEX PCI** offers a highly trusted service-orientated approach, combined with a fair and reliable price. **PROEX PCI** provides clear technical information on products installed and guarantees its systems will work smoothly through a declaration of compliance.

What we stand for

PROEX offers:

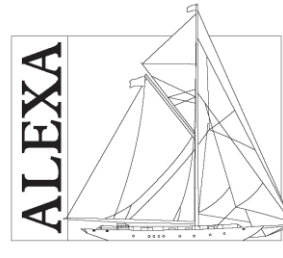

- **Reliable costs:** no last moment surprises after a job has been done.
- **Service oriented approach :** our customers score us with an average note of 9,1 out of 10.

Our customers

This is a small example of yachts and companies that we are serving:

Maria Cattiva

PALMIRA
VALLETTA

Our customers in the industrial market:

VILLA ITALIA
HOTEL | SPA | RESTAURANT

Our Partners

At PROEX we stand for service, innovation, tailored solutions and love for the detail. In order to cover the whole of the spectrum of fire related services, we decided to partner with those companies who share our vision and who are on the technological edge in the industry. We focused into four areas: active fixed fire protection systems, fire extinguishers and firefighting tools, passive fire protection and marine aerosol solutions. All these companies represent the state of the art in their area of expertise and, like us, most of them have more than 30 years' experience.

Ignitor: Passive fire protection

- manufacturer of flame retardants and intumescent products for passive fire protection: Mortar, varnishes and intumescent paints, fireproof liquids, nanotechnology, and its application in the marine, commercial and industrial sector.
- More than 40 year's experience
- Its customer's portfolio shows names as: the Spanish Senate, Liceo's Opera house and the whole of the Four Seasons hotel chain

Our Partners

Tema sistemi: active fixed fire protection systems

- The most advanced and detailed oriented producer of fixed systems.
- On the market for the last 30 years.
- Developer of brand-new fire extinguishing solutions. Solutions never thought of before.
- Highly specialized in engineering and manufacturing of certified and customer-oriented firefighting systems and products.
- Their Research and Development department follows the researches in strong cooperation with standardization bodies, institutions and universities, developing technologically advanced and eco-friendly fire-fighting solutions with an innovative design.
- RIINA Approved
- This is an example of their customers: Vatican museums, the French Navy, the Italian Navy, Fincantieri, Four Seasons hotels...

Our Partners

- **Anaf:** fire extinguishers and fire protection devices
 - Specialized in design, production and distribution of a vast range of fire extinguishers of every type and capacity, both pressurized and unpressurized, with internal or external cartridges.
 - More than 30 years technical design experience.
 - The leading European company in the design, production and distribution of portable fire extinguishers for the marine, space, industrial and automobile markets.
 - ANAF is the only portable fire extinguisher producer in Europe that completely builds internally every single component of their products.
 - Pharmaceutical standard quality checks on every single component of their products
 - Preferred supplier of Airbus, Siemens, General Motors, Lexus, Tesla...
